Design and inspiration

The Caribe Natural Dining Chair, a design by Sebastian Herkner, features a natural wicker webbing. Thanks to the new material in subtle beige, the furniture pieces blend in gently with any interior, thereby reinventing the colourful Caribe collection. In Colombia, there's a long tradition of using the wicker to craft baskets for the arrieros, the coffee pickers, who use them to collect the beans on the plantations in Colombia's hinterlands. Sebastian Herkner and ames founder Ana María Calderon Kayser discovered the material on their last trip to Colombia and felt inspired to create an indoor furniture collection.

About the designer

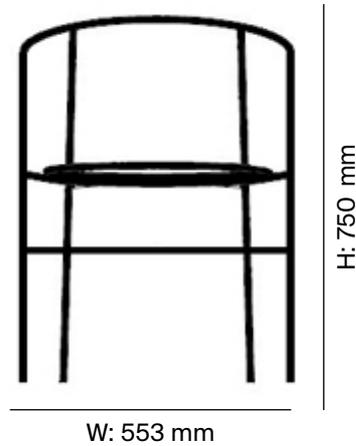

German designer Sebastian Herkner is a long-term collaborator of ames and has visited Colombia multiple times to experience the country's cities, nature and people first hand. He also visited many of the ateliers that ames has partnered with to learn about the unique traditional crafts of Colombia's regions. A sought-after contemporary designer and recipient of many industry awards, he has worked with many international design brands, creating intriguing pieces that showcase his intuition for interesting material, colour and texture combinations.

Craft and manufacturing

The craftspeople in the ames ateliers use an even more intricate weaving technique for Caribe Natural than for the version made with plastic strings. The result is a particularly dense structure for the seat and back. The wicker is made from roots of a climber plant that grows in the coffee regions of Colombia. Its liana-like branches are dried and prepped for ten days before they are woven by hand around the steel frame, a process that takes five days.

Care instructions

Wipe clean with a dry cloth, do not use chemical cleaners on the webbing. To protect the colours, avoid exposing the product to direct sunlight over long periods. Protect the product with a cover or store it indoors during winter or harsh weather conditions. If the product is exposed to sea air, wipe the metal frame regularly with a damp cloth. Fitted cover sold separately.
