BABAR (Simon Pengelly) 2006

Youthful and welcoming, the Babar stool is the ideal complement for informal domestic settings and fashionable public spaces. It comes in a number of self-colour options and bi-colour combinations to add visual impact to any space.

Babar is made in a plastic material, with an ergonomically shaped seat in soft integral polyurethane. The base, in satin-finish stainless steel with integrated footrest, includes a height adjustment mechanism.

The Babar collection is **GREENGUARD** certified.

Maintenance advice

Table-tops and seat panels/shells made of wood, polypropylene or polyethylene:

May be cleaned with a damp, soft cloth or sponge using lukewarm water. Neutral diluted detergent may also be used in lukewarm water. Strong detergents which contain bleach or which have an abrasive effect (such as scouring creams) should be avoided at all costs.

Laminate surfaces:

May be cleaned with strong products such as normal detergents for domestic surfaces diluted in lukewarm water, provided that they are not abrasive and do not contain acids or bleach. Avoid sponges and scourers made from synthetic fibres or metal which may leave permanent scratches on the surfaces.

Chrome, anodised or lacquered surfaces:

May be cleaned with strong products such as normal detergents for domestic surfaces diluted in lukewarm water, provided that they are not abrasive and do not contain acids or bleach. Avoid sponges and scourers made from synthetic fibres or metal which may leave permanent scratches on the surfaces. The products must be properly rinsed so that traces of the detergents do not spoil the special finish by causing the surface to turn opaque or to oxidise. After washing, dry it with a chamois leather. Polishes for chromed or lacquered finishes are not recommended: they should be used with caution and only by experts since the abrasive action may irreparably damage the surfaces.

Fabric:

May be treated using damp brushes, possibly with light detergent or vinegar, both of which should be very dilute. Alternatively, it can be drycleaned using appropriate products. For best care and maintenance results please follow the indications given by the ISO symbols on the relevant fabric information sheet.

Hard leather grade 1, hard leather grade 2 and soft leather:

Must not be cleaned with water as this may leave marks. It is better to use quality products for cleaning leather, carefully following the instructions of the manufacturer of the cleaning product. In case of doubt test the product on a small area which is normally hidden from view in order to check the result, waiting at least 24 hours to allow any possible problems to develop.

Stainless steel:

Clean regularly (every 15 to 20 days) with a soft damp cloth or with special products for cleaning stainless steel available on the market.

Faux leather:

May be cleaned with a damp, soft cloth using lukewarm water.

Warranty

ARPER guarantees that its products will maintain their characteristics for a period of 5 years from the date of delivery, except for normal wear and tear and provided that they are used in accordance with the instructions supplied.

ARPER will replace, free of charge, any product that is found not to meet this guarantee, without accepting any other responsibility of any sort.

This warranty does not apply to components, external accessories or materials supplied by the purchaser and applied to the products in order to customise them.

Arper Spa si riserva di apportare modifiche e/o migliorie di carattere tecnico ed estetico ai propri modelli e prodotti in qualsiasi momento e senza preavviso. Per maggiori informazioni visitate il sito www.arper.it
