Giochi di colore lucidi e satinati, accostamenti monocolori o a contrasto per i contenitori a cassetti Dado progettati in diverse dimensioni. Tipologie per arredare diverse

zone della casa, riprendono il tema della cornice degli armadi Pier, che nasce dalla maggiore profondità di top e fianchi rispetto al fronte dei cassetti.

A game of glossy and satin finished colour schemes: Dado drawer units in monochrome or contrasting combinations, available in different sizes. These units, designed to furnish

the different areas of the home, take on the theme of the frame seen on Pier wardrobes, which is produced by the greater depth of the tops and sides compared to the front of the drawers.
