DESCRIPTION

Small pieces of furniture are in high demand ... especially smaller side tables and consoles with a functional drawer. Until now, we never had a real console with three separate drawers in collection. This changes with this Caro night stand that we designed for the Homka-collection. It is completely made of clear mirror glass glued on black MDF. Also the drawers with runners and a stop are black inside. Because of the fragility of the product, we have also made sure the packaging is perfect, including special handles to carry the console.
