DESCRIPTION

Deknudt Mirrors wants to re-invigorate the Young Living section in its collections, presenting a number of mirrors in very nicely lacquered fibreboard (MDF) frames. They can be used individually or in a combination of different colours and sizes. Because this kind of mirrors is an enrichment of our collection, we have designed immediately an entire family in black and white lacquer. The Rack is another member of the same fibreboard (MDF) family and comes in white and black only. It is a square framed mirror with rounded corners. Peculiar is that the bottom of the frame is deeper than the upper part. The side parts are going from 5 cm at the top to 14 cm at the bottom. This gives the possibility to put some small items on the frame in front of the mirror.
