DS-257/1

DS-257/11

The DS-257 is a genuine executive armchair. Its quilted seat and back cushions are not merely a demonstration of traditional values, but also reflect a fine sense of luxury. Its dynamic lines, underscored by forward-sweeping armrests, conceal comfortable upholstery that makes the chair a delight to sit in even for longish periods. Top-quality leather and immaculate workmanship give the chair an almost sensual air. Height and tilt adjustments make for additional comfort. The foamed seat shell is fitted on a chrome-plated metal column mounted on a solid five-star base in polished aluminium that provides the mobility needed for working at a desk. This swivel chair is available with hard or soft castors depending on the flooring.
