

La serie è formata da mobile singolo a due ante con apertura ad ala, settimino, mobile basso e cassettiera. I mobili sono realizzati in legno tamburato ricoperto da schegge di metacrilato colorato specchiato (Colorflex), tagliate al laser e disponibili nei colori a campionario. Le parti laccate sono finite in tono con vernici speciali ad alto grado di metallizzazione, studiate appositamente e in esclusiva per Edra.

The range includes a stand-alone storage unit with doors that open out like wings, a “settimino” or seven-drawer dresser, a low storage unit and a chest of drawers, made out of particleboard covered completed with brilliant laser-cut shards of acrylic (Colorflex) available in a range of different colours. The frame is colour-coordinated in a special metallic paint formulated especially and exclusively for Edra.
