

Flap

Francesco Binfarè

General description:

An original type of upholstery with a completely new profile and performances.

The sinuous shape of the upholstered base has 9 different parts that tilt at various angles become backs and rests offering the most unhindered relaxation positions. The frame is in tubular steel. The numerous movable parts, each one connected to the double steel mechanisms can be reclined in six different inclinations.

Base is in brushed and chromed metal and feet are in chromed metal with scratch-proof aluminum and rubber tips. Filling is realized by hand with more than 180 different flexible and breathable polyurethane pieces. Covered with leathers or fabrics from the collection, the back of the cover is realized in lycra.

Flap is one of the Edra milestones, immediately from 2000 it became a big classic for its immediacy, simplicity, elegance and functionality.

Flap "Sky Kiss"

The Flap sofa is upholstered in an exclusive arras technique fabric using a variety of yarns (chenille, satin, cotton cretonne) woven on a special loom. It portrays, like on a big painting, the kiss between a couple. Each item is signed by Francesco Binfarè and comes with a certificate of authenticity.

Use:

With its 9 moving parts, Flap offers comfort and anatomic performance depending on the need of the moment. With simple and easy movements it's possible to obtain many different positions:

- From a soft and dense perfect base to a formal sofa.
- From a sofa for a single person with a big supporting top to a seating for 12/14 people.
- From an almost horizontal relaxing to a lecture position.
- From a daybed for 2 by raising up the lateral moving elements to whatever you want.

Technical description:

Structure and mechanisms in steel.

Padding in elastic and breathable polyurethane.

Base in brushed and chromed metal.

Feet in chromed metal with scratch proof aluminum and rubber tips.

Undercover in polyamide.
