Kundenstoff/ Kundenleder

Bei den Maßangaben für Kundenstoff wird von einer Stoffbreite von 140 cm und Uni-Stoff ausgegangen. Bei gemustertem Stoff ergibt sich ein Mehrverbrauch. Bitte genaue Zuschnittmaße anfragen. Kundenleder wird erfahrungsgemäß mit 45% Verschnitt gerechnet.

Die eigentlichen Zuschnittmaße sind deutlich geringer. Bei Anlieferung in qm muss darauf geachtet werden, dass alle Zuschnittmaße hineinpassen. Bitte genaue Zuschnittmaße anfragen. Der angegebene Stoffbedarf wird bei der Verarbeitung von Uni-Flachgeweben nach Webkante errechnet. Sollte diese Zuschnittart nicht möglich sein, wird ein notwendiger Mehrbedarf nachgefordert. Bei rapportgemustertem Bezugsstoff und auf Wunsch nach Schnittkantenverarbeitung muss der Stoffbedarf vorher ermittelt werden. Grundsätzlich gilt bei eingesandten Stoffen, dass diese ohne Prüfung auf deren Eignung verarbeitet werden. Wir übernehmen keine Haftung für Faltenbildung, Webfehler oder anderer Mängel, die aus den eingesandten Stoffen resultieren. Stellt sich heraus, dass ungeeignetes Material zur Verfügung gestellt wurde, so bestehen keine Gewährleistungsansprüche. Der Kunde hat die Mehrkosten, die uns entstehen, insbesondere der Rücksendung, erschwerten Verarbeitung etc. zu tragen.

Customer own material (C.O.M.)

With the indication of measurements of customer fabric a width of 140 cm and plain fabric is assumed. An increased consumption is needed for patterned fabrics. Please ask for exact cut measurements. From experience customer leather has to be calculated with 45% scraps.

Cut measurements are clearly smaller. When delivering in square metre pay attention that all cut measurements fit. Please ask for exact cut measurements. For the manufacture of unicoloured plain fabric the specified required material is calculated according to selvedge. In case this kind of cut measurement is not possible an increased demand of fabric will be required. It is necessary to pre-calculate the demand of fabric for pattern repeat and if desired for cut selvedge manufacture. Basically the fabric is manufactured without suitability test. We are not liable for wrinkling, flaw or other defects of received fabric. In case the provided material is unsuitable a warranty claim is excluded. The customer has to pay additional charges for a possible return consignment, a hindered manufacture etc.
