LEYA BENCH

While the elegant, tautly upholstered exterior sits on either a delicate wire frame or a solid wood trestle, Leya's interior is soft and inviting like a large cushion: in this way, Birgit Hoffmann and Christoph Kahleyss's chair design is the result of combining opposites. The Leya bench (available at 180cm, 200cm, 220cm or 240cm length) rests on a wire frame so lithe that the piece appears far lighter and smaller than it actually is.

BIRGIT HOFFMANN AND CHRISTOPH KAHLEYSS

Birgit Hoffmann (*1968) and Christoph Kahleyss (*1963) both studied industrial design in Kiel. Since 2010 they work together for prestigious companies. Before they started to run their design studio both designers gained experience abroad.
