## GHOST OUT / SOFA, Paola Navone

Family of padded sofas with removable upholstery, Ghost Out 10/12/16 boast a comfortable and enveloping seat that develops around a light body with essential volumes. Designed to resist water and sunlight and to maintain their shape and aesthetics over time, they are available in various sizes, two-seater or three-seater and with different seat depths. They are characterised by a geometric structure in which the softness is accentuated by loose cushions. The main feature is the upholstery: an oversized housse whose profile is underlined by the visible stitching, to let itself be undressed with ease and take on a different image each time.
