JEKO / CANOPY SOFA, Paola Navone

Sofa and canopy in colonial style of exotic inspiration, Jeko 07 has a structure made of ECOTEak, a material coming from the reuse of recovered beams and teak elements that have been repaired with recycled wood, assembled and polished to highlight the original veins. It is characterised by a wide and low seat, with removable cushion to which loose cushions can be added to increase its comfort. Starting from the four corners of the sofa arise 4 wooden columns that go on to build the canopy, upon which a white curtain is laid for greater privacy and intimacy.
