

TORII

design: Renato Zamberlan, 2015

Struttura e gambe in metallo crudo. Sottilissimo top in ceramica antigraffio e antimacchia, dallo spessore di 3mm.

Structure and legs in hard metal. Slim top in scratch and stain resistant ceramic, 3mm thick.

Structure et pieds en métal cru. Plateau ultrafin en céramique, anti-rayures et anti-tache, de 3 mm d'épaisseur.

Struktur und Beine aus Rohmetall. Dünner Aufsatz aus kratzfester und schmutzabweisender Keramik, Stärke 3 mm.

Estructura y patas de metalen bruto. Parte superior muy delgada de cerámica resistente al rayado y a las manchas, con un espesor de 3 mm.

Il materiale del top è volutamente flessibile, ma incredibilmente resistente, realizzato con nanotecnologie ceramiche, in modo da esaltarne l'apparente fragilità dovuta alla sottigliezza del top stesso.

The top is made from a material that is intended to be flexible but is also extremely durable, made with ceramic nanotechnology to enhance the fragile appearance of the top because it is very slim.

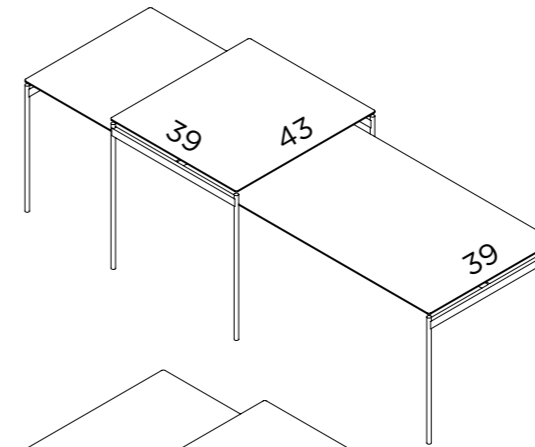

Le matériau du plateau est délibérément souple, mais très résistant, réalisé grâce à des nanotechnologies céramiques, de manière à en souligner la fragilité apparente due à la minceur du plateau.

Das Material der Auflage ist absichtlich flexibel, aber unglaublich widerstandsfähig, mit keramischer Nanotechnologie gefertigt, um deren scheinbaren Zerbrechlichkeit hervorzuheben, die auf die geringe Stärke der Auflage zurückzuführen ist.

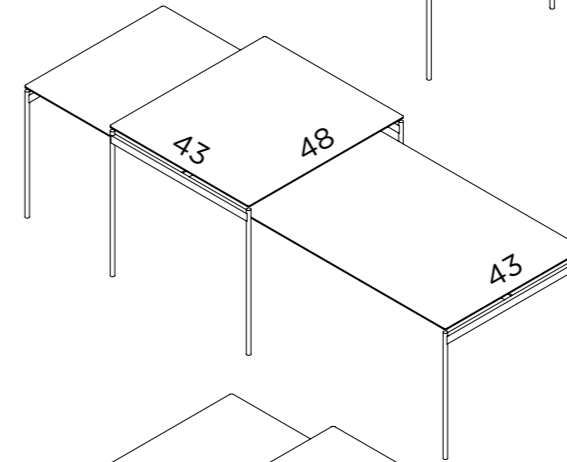

El material de la parte superior es intencionalmente flexible, pero increíblemente resistente, elaborado con nanotecnología cerámica, de manera que se mejora la fragilidad aparente debido a la delgadez de la parte superior en sí misma.
