

## IDEA ONE with removable cover (Designer B.Fattorini)

### Frame

Frame in solid wood, suspension with elastic belts covered with variable-density polyether.

Seat cushions in variable-density indeformable polyether; backrest cushions filled with down in stitched sections and polyether insert.

Black-lacquered hidden recessed feet in solid wood, height 4 cm.

**If the units are placed side-by-side, a coupling device is provided. This request must be highlighted by a drawing.**

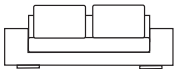

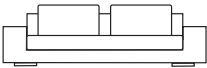

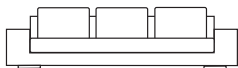

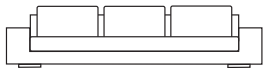

### Cover

The upholstery covers every part of the sofa and is completely removable.

The underlining (in a synthetic stretch fabric for the seat and in cotton for the frame) makes cover removing easier and the sofa maintains its good look even when uncovered.

Optional extra covers if required.

The units in leather have a fixed cover only and, at MDF Italia's discretion, a seam in the middle of the backrest, both in the front and on the back, and on the lower front section.

		dims	fabric length	code	fabric	complete	extra cover
