INDOOR / OUTDOOR

An extension of the Neil collection, with an inclusive image, NEIL TWIST makes functionality and versatility its primary features.

Due to its iconic nature it is a perfect accessory in both indoor and outdoor environments, able of conferring character, thanks also to its bright colours, to modern gardens and terraces.

The seats are made with an original and exclusive weave. Handmade product.

Structure

Load-bearing seating structure made of steel, woven with high-tenacity polyester cord, solution-dyed, guaranteeing high resistance to atmospheric agents, light, and abrasions, with stretch resistance. Sled-base made of steel rod.

The frames are powder painted in matt white, bronze and black nickel with a specific treatment for outdoor use.

Available in the low version, with or without armrests.

Variants and types:

Cord weave available in the following colours:

- Matt ecru (col. 23)
- Matt anthracite grey (col. 03)
- Glossy silver grey (col. 04)
- Glossy English green (col. 17)
- Glossy orange (col. 11)

All Neil Twist models have a contrasting stitching detail, in glossy anthracite colour.

Neil Twist Chair available on page 351

Outdoor use

Any material left outdoor, even if properly treated, due to the action of weathering, can have superficial molecular and colour changes during its lifetime. Of course the amount of alteration is directly related to the amount of exposure to weather and to the geographical area. Regular maintenance, for instance periodic cleaning with water, increases resistance to corrosion.

For these reasons it is advisable to not allow water to form pools on the seat, cover or put the furniture away during the winter, and wash all surfaces with water and neutral detergent.

During winter and when the items are not in use, we recommend covering the structures with the specific optional cover accessories.

ACCESSORIES

Protective tarpaulin specifically for outdoor products, waterproof, made of 100% polyester, outside with acrylic coating, inside with acrylic resin coating.

Its characteristics are emphasised by its fully fungicidal Teflon finish.

Each tarpaulin comes with a closable slip cover, so that it can be folded and kept correctly when not in use.

Use and Maintenance:

For correct washing, use a delicate neutral soap and water, and rinse thoroughly after washing, using only water.

After cleaning, allow the fabric to dry correctly before folding it and putting it away, to avoid it getting mouldy.

NB Avoid the fabric coming into direct contact with weed killers, fertilisers, and chlorine, as these may stain the protective tarpaulin indelibly.

Strength:

- Tensile strength: warp: 125 DaN/5 cm - weft: 120 DaN/5 cm
- Tear strength: warp: 2.5 DaN - weft: 2,5 DaN/5 cm
- Light resistance: level 6/8

- Heat resistance: +70°C
- Cold resistance: -30°C
- Column of water: approx 1000 mm
