

**Struttura:** in legno tamburato monoscocca.

**Preparazione della struttura:** poliuretano espanso a quote differenziate ad alta densità.

**Cuscinatura:** imbottitura cuscino seduta in piuma d'oca canalizzata ad alto spessore per conferire grande sofficià al cuscino. Insetto in poliuretano espanso ad alta resilienza, rivestito nella parte superiore con materiale poliuretano "termosensibile". Cuscini schienale totalmente imbottiti in piuma d'oca canalizzata.

**Braccioli:** rivestiti sul lato interno con trapuntino in piuma d'oca canalizzata che conferisce morbidezza e sofficià dando al bracciolo l'aspetto di un cuscino.

**Base:** realizzata con telaio in metallo a sezione rettangolare 30x15 mm con finitura color Peltro (tonalità ideata da Minotti Studio). Appoggio a terra tramite piedini (disegnati e progettati da Minotti Studio) stampati in metallo pressofuso colore Peltro con finitura extra-lucida anti-touch. Questi piedini sono in grado di resistere a circa 300 ore di nebbia salina (salsedine marina) e sono resistenti a graffi, sostanze chimiche, urti (data la loro notevole plasticità) e ai raggi ultravioletti. Scivolante protettivo in Hytre® (gomma morbida antigraffio).

**Sfoderabilità:** il rivestimento è completamente sfoderabile nella versione in tessuto smontando la base perimetrale portante allentando le apposite manopole. Nella versione in pelle il rivestimento è fisso solo per la struttura, mentre è sfoderabile per i cuscini schienale e seduta.

**Optional:** cuscino poggiatesta realizzato in poliuretano espanso ad elevata densità rivestito con trapuntino in piuma d'oca canalizzata e fissato alla struttura mediante fascia. La fodera del cuscino può essere realizzata a scelta nei tessuti o pelli a campionario, qualora non venisse specificata all'atto dell'ordine verrà coordinata al rivestimento del divano. Il poggiatesta si può collocare in diverse posizioni a seconda delle varie esigenze di utilizzo.

**Frame:** one-piece sandwich wood frame.

**Frame preparation:** let into high-density polyurethane foam in different densities.

**Cushions:** thick seat cushion padding in goose down divided into sections, for increased cushion softness. Resilient polyurethane foam insert, covered - in the upper part - with "thermosensitive" polyurethane material. Backrest cushions fully padded with goose down divided into sections.

**Armrests:** internal side covered with quilted goose down divided into sections, which results in enhanced softness, thereby making the armrests look like cushions.

**Base:** fitted with metal frame, rectangular section, 30x15 mm; Pewter-coloured finish (shade devised by Minotti Studio). Feet (designed by Minotti Studio), die-cast metal pressed, pewter-coloured; ultra-glossy, anti-touch finish. These feet can withstand saline mist (sea salt) for approximately 300 hours and are resistant to scratches, chemical substances, shocks (due to their plasticity) and UV rays. Protective glides made of Hytre® (soft, scratch-proof rubber).

**Covers:** fully removable in the fabric version by taking the external supporting base apart, loosening the knobs. Leather cover of the frame non-removable; removable backrest and seat cushion covers.

**Optional:** headrest cushion made of high-density polyurethane foam, covered with quilted goose down divided into sections and fixed to the frame by means of a strip. The cushion cover can be supplied in the fabrics or types of leather available in the pattern book. If the material of the cushion cover is not specified in the order, it will be coordinated with the sofa cover. The headrest can be placed in several positions, to satisfy individual requirements.

**Rahmen:** Struktur aus Sperrholzschalen.

**Herstellung des Rahmens:** mit unterschiedlich dick geschäumtem, hochdichtem Polyurethan.

**Kissen:** Dickes Sitzkissenpolster aus kanalisierten Gänsedaunen, durch die das Kissen sehr locker wirkt. Einsatz aus hoch kerzbähem, geschäumtem Polyurethan und Oberseitenpolsterung mit "wärmesensiblen" Polyurethanmaterial. Komplett mit kanalisierten Gänsedaunen gefüllte Rückenlehnenkissen.

**Armlehne:** an der Innenseite mit einem Steppbezug aus kanalisierten Gänsedaunen bezogene Armlehnen, die weich und locker wirken, was der Armlehne das Aussehen eines Kissens verleiht.

**Gestell:** aus einem Metallrahmen mit rechteckigem Schnitt 30x15 mm und zinnfarbenem Finish (von Minotti Studio erfundener Farbton). Bodenaufgabe durch (von Minotti Studio entworfene und entwickelte) Füße, die im Metalldruckgussverfahren gegossen und mit einem zinnfarbenen Extrablacklack endgefertigt werden. Diese Füße sind ungefähr 300 Stunden gegen Salznebel (Meeressalz) beständig und sind kratzresistent, chemikalienbeständig, stoßfest (aufgrund ihrer herausragenden Formbarkeit) und UV-strahlenbeständig. Gleitschutz aus Hytre® (weicher, kratzsicherer Gummi).

**Abnehmbare Bezüge:** Nur der Stoffbezug ist abziehbar. Hierzu wird das umlaufende tragende Grundgestell nach vorheriger Lockerung der Kugelgriffe demontiert. Fester Lederbezug nur für das Gestell.

**Optional:** Kopfstützenkissen aus geschäumtem, hochdichtem Polyurethan. Steppbezug aus kanalisierten Gänsedaunen und Befestigung am Gestell durch ein Band. Der Kissenbezug kann aus den Stoffen oder dem Leder, die in der Musterkollektion zur Auswahl stehen, gefertigt werden; wird der Kissenbezug nicht auf der Bestellung angegeben, so wird er auf den Sofabezug abgestimmt. Die Kopfstütze lässt sich je nach Nutzungsanspruch in unterschiedliche Positionen stellen.

**Structure:** en bois contreplaqué monocoque.

**Préparation de la structure:** en polyuréthane expansé à hauteurs différenciées haute densité.

**Coussins:** le rembourrage du coussin d'assise en plumes d'oie à secteurs à haute épaisseur confère une grande souplesse au coussin. Élément en polyuréthane expansé à haute résilience, revêtu dans la partie supérieure avec un matériau polyuréthane "thermosensible". Les coussins du dossier sont entièrement rembourrés en plumes d'oie à secteurs.

**Accoudoirs:** le côté intérieur est matelassé en plumes d'oie à secteurs pour plus de douceur et de moelleux, ce qui les transforme en de véritables coussins.

**Base:** réalisée avec châssis en métal de section rectangulaire 30x15 mm avec finition couleur Étain (tonalité conçue par Minotti Studio). Piètement (conçu et réalisé par Minotti Studio) en acier moulé sous pression, couleur Étain avec finition ultra brillante anti-touch. Piètement résistant à environ 300 heures de brouillard salin (salinité marine), aux éraflures, aux substances chimiques, aux chocs (en raison de leur incroyable plasticité) et aux rayons ultraviolets. Patin de protection en Hytre® (caoutchouc souple antiéraflure).

**Possibilité d'enlever la housse:** revêtement entièrement déhoussable en tissu après démontage de la base périmétrale porteuse en desserrant les boutons moletés. Revêtement en cuir fixe pour la structure, coussins dossier et d'assise déhoussables uniquement.

**Optionnel:** réalisé en polyuréthane expansé haute densité, revêtement matelassé en plumes d'oie à secteurs et fixation à la structure à l'aide d'une sangle. La doublure du coussin peut être réalisée au choix parmi la gamme de tissus et cuirs sur catalogue ; en l'absence de spécification à la commande, le coussin sera coordonné au revêtement du divan. Le repose-tête peut être placé en différentes positions en fonction des différentes exigences d'utilisation.

La confezione del cuscino di seduta e della fodera vengono realizzati con una leggera e moderna trapuntatura. L'imbottitura del cuscino di seduta è in poliuretano espanso ad alta resilienza, rivestita nella parte superiore con materiale poliuretano "termosensibile".

The seat cushion and cover are made with a light, modern quilt. The seat cushion is padded with resilient polyurethane foam and covered - in the upper part - with "thermosensitive" polyurethane material.

Das Sitzkissen und der Bezug werden mit einer leichten, modernen Steppdecke bezogen. Sitzkissenpolster aus hoch kerbzähem geschäumtem Polyurethan und Oberseitenpolsterung mit "wärmesensiblen" Polyurethanmaterial.

La confection du coussin d'assise et celle de la doublure sont réalisées avec un léger matelassage moderne. Le rembourrage du coussin d'assise est en polyuréthane expansé à haute résilience, revêtu dans la partie supérieure avec un matériau polyuréthane "thermosensible".
