## CLYFFORD DESIGN RODOLFO DORDONI

**Struttura:** realizzata con trafilato di metallo tagliato al laser, spessore mm 10 (mm 6 per gli elementi con misura Ø cm 50 H51 e cm 60x44 H51). Finitura della struttura semilucida color peltro. Top superiore in MDF, spessore mm 25, con sagomatura sui bordi e finitura laccata lucida nei colori fango, granito, peltro e petrolio oppure in rovere laccato Moka a poro aperto. Top superiore in vetro fumé bisellato, spessore mm 10, temperato. Il top è fissato alla base con particolari supporti in metallo.

**Base:** piedini cilindrici sagomati e raccordati. Scivolanti protettivi in nylon nero.

**Frame:** laser-cut drawn metal base, 10 mm in thickness, except for coffee tables Ø cm 50 H51 and cm 60x44 H51 - 6 mm in thickness). Semigloss pewter-coloured frame finish. Upper top made of MDF, 25 mm in thickness, with shaped edges; glossy lacquered in mud, granite, pewter and petroleum colours, or finished in open-pore Moka lacquered oak. Upper top made of chamfered smoked glass, 10 mm in thickness, tempered. The top is fixed to the base by means of special metal supports.

**Base:** shaped, joined cylindrical feet. Black nylon glides.

**Rahmen:** aus lasergeschrittenem, gezogenem Metall, Dicke 10 mm und 6 mm nur bei Elementen mit der Abmessung Ø cm 50 H51 und cm 60x44 H51. Finish des Gestells in Halbglanzinnfarbe. Oberes Top aus 25 mm dickem MDF mit seitlichem Randprofil und einem Glanzlackfinish in den Farben Schlamm, Granit, Zinn und Petroleum oder aus offenporig in Mokka lackierter Eiche. Obere Ablage aus 10 mm dickem, abgeschrägtem Sekuritrauchglas. Befestigung der Ablage am Metallgestell durch spezielle Halterungen.

**Structure:** en métal étiré découpé au laser, épaisseur mm 10 (mm 6 seulement pour les éléments Ø cm 50 H51 et cm 60x44 H51). Finition de la structure couleur étain semi-brillant. Plateau supérieur en MDF, épaisseur mm 25, avec profilage des bords et finition laquée polie couleurs boue, granit, étain et pétrole ou bien rovere laqué moka à pore ouvert. Plateau supérieur en verre fumé biseauté, épaisseur 10 mm, trempé. Le plateau est fixé à la base à l'aide de supports spéciaux en métal.

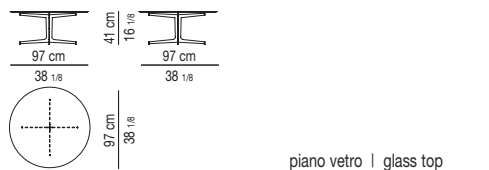

**Base:** pieds cylindriques profilés et raccordés. Anti-glisserments de protection en nylon noirs.
