

PS07 *secretary tables*

Sekretäre

An unforgettable shape - the new PS07 bureau captivates with exceptional shape and simple elegance. But not only does the design adulate the eyes, it also creates practical storage space and a large work surface, keeping everything you need to work close to hand. The stable base can be painted in all RAL colours and is also available in a chrome finish. The metal worktop is finished semi-matt. The V44 side table incorporates the unique design of the bureau. Therefore, it makes an ideal secondary piece, or, when painted in your favourite colour, a key piece in itself.
