A captivating, unconventional mirror for any setting

Introducing Illu, a stunning mirror distinguished by its unique, wavy frame and built-in dimmable LED light. An eye-catching design, that combines both decorative and functional elements, making it an enchanting addition to any room in the home. Illu presents an unconventional mirror with a playful expression and an intriguing frame that illuminates the mirror itself, adding character and finesse to the design. The winding frame is designed with a specific thickness to make room for the integrated lighting, ensuring the right ambiance. When lit, the frame becomes an illumination, presenting a distinct character that enchantingly transforms the mirror.

”The market is filled with mirrors featuring built-in lighting, mostly intended for bathrooms. However, not many have been designed to adapt to any room or interior. Illu Mirror is an exploration of creating a mirror with integrated light that seamlessly fits into any setting,” explains designer, Simon Legald.

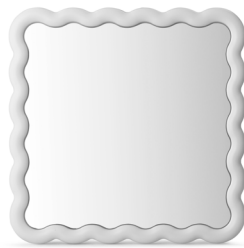

Inspired by the beautiful glow emitted by traditional dressing room mirrors with fitted light bulbs, Illu is a modern, versatile interpretation that will fit seamlessly into any hallway, vanity space, bedroom or as a sculptural object in the living room, enhancing the space with its captivating presence.

The Illu Mirror collection offers three different sizes, all fitted with built-in, dimmable LED light that can be controlled using a discreet button at the base of the mirror.

Connecting People and Spaces

Since Normann Copenhagen's foundation in 1999, our ambition has been to challenge conventional thinking and make the ordinary extraordinary through great design. By combining the craftsmanship, functionality and endurance characterized by our Danish design heritage with modern silhouettes and durable materials, we aim to create original products in a contemporary design that withstand the test of time. We believe in uniting people and spaces across the world and improving the quality of people's lives through the power of great design. Our products combine functionality and design and accommodate the diversity of needs of modern life in residential and professional interiors alike.
