An elevated sleeping experience with attention to quality

Normann Copenhagen unveils its first bed frame design. Crafted with meticulous attention to detail, the new Notch Bed Frame is expertly made using 100% solid pine wood planks, showcasing the exceptional beauty and durability of the natural material. Inspired by the traditional notching technique, where one plank is inserted into another to form the joints of the furniture piece, the bed frame achieves both structural integrity and stunning decorative details at the corners. This unique joining method constitutes the main characteristic of the design, a decorative detail that distinguishes the design, making it stand out from other wooden bed frames. Notch Bed Frame's clean lines and natural finish exude an air of simplicity and elegance, allowing it to harmonize effortlessly with existing decor.

The allure of the Notch Bed Frame extends far beyond its initial impression. Over time, the durable and welcoming appeal of the pine wood will develop a stunning patina, further enhancing its natural charm. To prevent excessive discoloration and to ensure additional durability, each plank is carefully lacquered with a clear, matte UV varnish, providing protection from the sun's rays while preserving the wood's innate beauty.

Notch Bed Frame is available in two sizes, offering versatile options for different sleeping spaces and preferences, whether in a compact bedroom or spacious master suite. With its timeless appeal and exceptional quality, the Notch Bed Frame transcends trends, becoming a cherished centerpiece in any bedroom and making a peaceful night's sleep an aesthetic experience.

Connecting People and Spaces

Since Normann Copenhagen's foundation in 1999, our ambition has been to challenge conventional thinking and make the ordinary extraordinary through great design. By combining the craftsmanship, functionality and endurance characterized by our Danish design heritage with modern silhouettes and durable materials, we aim to create original products in a contemporary design that withstand the test of time. We believe in uniting people and spaces across the world and improving the quality of people's lives through the power of great design. Our products combine functionality and design and accommodate the diversity of needs of modern life in residential and professional interiors alike.
