**New version 2013**

Nel 2013 Pallucco presenta la nuova versione Fortuny LED, garantendo intramontabilità all'icona del design contemporaneo.

La nuova versione si aggiunge alla tradizionale dotata di lampadina ad incandescenza e consente di allineare i modelli Fortuny all'attuale tendenza mondiale rivolta al risparmio energetico. La lampada classica (grande) è dotata di power LED da 48W (luce calda 3000°, durata 50.000 h) mentre 32W (3000°, durata 50.000 h) per la versione Pétite entrambe dimmerabili. Le lampade mantengono invariati le finiture della struttura e i tessuti presenti a catalogo.

In 2013 Pallucco is presenting the new LED version of that eternal icon of contemporary design, the Fortuny lamp. The new version joins the conventional model with its incandescent bulb to bring the Fortuny lamps into line with current world energy-saving trends. Both the classic (large) and the Pétite lamps are fitted with dimmable bulbs—high power 48W (warm light 3000°, duration 50.000 h) and 32W (warm light 3000°, duration 50.000 h) LED respectively. The finishes of the stand and the fabrics remain those listed in the catalogue.
