

RS#3

by *RAFAEL RODRÍGUEZ*

DESCRIPTION:

Finally, a football table for everyone. The RS#3 lets you enjoy the same sensations as its bigger cousin the RS#2 but with new features.

It's all-terrain: the same model for indoor and outdoor. Its new lines and legs make it lighter (20 kilos less than RS#2). But without losing strength and stability.

It introduces more colors to the RS range. RS#3 comes in white, red, blue and yellow to add a touch of color to every match. Its eye-catching legs are always white, as are the handles. And each color comes with standard teams (green, yellow, blue, red ...).

It's made in high-quality materials, such as the weather resistant steel with cataphoresis coating process. And price is smaller and more economical.

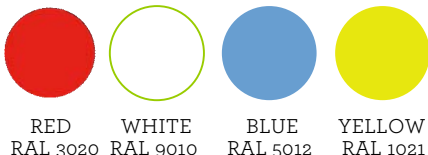

MATERIALS:

Structure: Steel with cataphoresis coating process.
