Chairs, armchairs, sofas and poufs

A lightweight stackable chair, equally suitable for indoor and outdoor, consisting of a white metal frame with a natural or white wicker seat and backrest. Straight at the bottom and curved at the top, the backrest is ergonomically designed to support the back and give gentle protection to the kidneys, enabling hours of extraordinarily comfortable seating. Under the seat, the metal structure is X-shaped, not merely for design's sake but to absorb and cushion the weight of the person sitting.

GENERAL DESCRIPTION

White metallic structure.

Seat and back made of hand-woven synthetic rattan with a natural or white finish.

Stackable.

For indoor and outdoor.

APPROXIMATE WEIGHT (without packaging)

Weight: 6.6 Kg / 15 lb
