

VIPP9 SOAP DISPENSER

DESIGNER

Vipp Design Lab, 2005

COUNTRY OF ORIGIN

Design: Denmark

Production and assembly: PRC

PRODUCT DESCRIPTION

A specially manufactured pump, stainless steel and silicon rubber are the main elements in Vipp's soap dispenser. The Vipp soap dispenser embodies the same distinctive design and requirements to quality as the more than 70 year-old pedal bin.

CARE INSTRUCTIONS

If the soap does not flow through the pump at first, pump hot water through the pump head a few times.

Before replacing the soap, we recommend cleaning the dispenser with hot water.

The pump head can be cleaned by rinsing it with hot water.

Stainless steel surfaces should be cleaned and polished with a microfiber cloth, glass cleaner or other non-abrasive and gentle cleaning agents.

Lacquered surfaces should be cleaned with a moist cloth.

Do not wash the dispenser in a dishwasher. Vipp products with dark surfaces should be cleaned with a soft brush and, if stained, with a bit of water. Then wipe with dry cloth.

WARRANTY

2 years warranty. The warranty presupposes rightful use as described in Vipp's care instructions, with reservations for normal wear and tear. Please see Vipp's care instructions below or at vipp.com.

VIPP9 SOAP DISPENSER

MATERIALS

Pump: Stainless steel AISI 304L Abs

Body: steel AISI 304

Bottom: PP-TPR

MANUFACTURING

Body: Turning, shaping stamping, TIG welding,

Pump: injection molding, forging, laser welding, spot welding, ultrasonic welding, gluing, electro etching of logo

DIMENSIONS & WEIGHT

Weight: 0,302 Kg

Length: 130 mm

Diameter: ø90 mm

VERSIONS

Black: metallic powder coating

White: White powder coating (RAL 9016)

Stainless steel: Polished

limited 2011: Powder coated (NCSS 0580 Y90R)

PACKAGING/FSC

Grey gift box, FSC mixed sources

Height: 150 mm

Width: 110 mm

Length: 110 mm
