

MORTEN BO JENSEN, CHIEF DESIGNER AT VIPP

“The Vipp456 lounge chair is characterised by its rigorous aesthetic and defined comfort, deliberately constructed with a focus on minimal use of space in the decor. Initially designed to be placed in front of the fireplace inside the Vipp Shelter, the lowered seat and oblique back rest are shaped to support conversation.”

CONGRATULATIONS ON YOUR VIPP LOUNGE CHAIR

A Vipp product is crafted from a design heritage dating back to 1939, where the quality of our products is measured on their ability to provide experiences out of the ordinary. Vipp's venture into architectural projects like the Vipp Hotel has prompted the desire to develop a line of Vipp furniture to inhabit these spaces. Inspired by the monochrome architecture and interior of the Vipp Shelter, the Vipp lounge chair features similar attributes expressed through the choice of solid materials and the dark-toned leather upholstery.

Just like the first Vipp pedal bin from 1939, this chair is timeless in its aesthetics, highly tested in its function, and valued for the joy inherent in its daily use.

Please take a seat.

We hope you will enjoy your Vipp lounge chair for many years to come.

Kasper Egelund

CEO of Vipp and grandson of founder, Holger Nielsen

PRODUCT DESCRIPTION

The Vipp lounge chair is characterised by its carefully considered combination of powder-coated aluminium and high-quality leather. Featuring a die-cast frame with padded armrests and an obliquely angled seat and back rest, the lounge chair offers a refined aesthetic and a relaxed seating position. A composite mesh on the back of the chair ensures stability, while the upholstery features fine channel seams to provide optimal seating comfort.

Materials

Solid frame in powder-coated aluminium and stainless steel, with a sturdy mesh back and upholstery in high-quality leather.

Leather: Shade, Sørensen Leather, 100 % protected aniline leather

Composite mesh: Batyline Eden, Serge Ferrari, 50% polyester, 50% sheathed cotton

CARE INSTRUCTIONS

Frame

Keep powder-coated surfaces clean and dry. Use a lint-free cleaning cloth or a soft brush with warm water and a mild detergent.

Vipp products with dark surfaces should be cleaned with a soft brush and, if stained, with a bit of water. Finish by wiping down the surface with a dry cloth.

Upholstery

We recommend caring for the upholstery of your Vipp lounge chair to ensure its long-lasting appeal and appearance. A few simple directions will help preserve the upholstery's natural beauty for many years to come.

Leather

Avoid exposing the upholstery to direct sunlight, extreme heat or sharp objects

Use a clean, dry cloth to absorb spills

Use a vacuum cleaner with a soft brush for regular dust removal

Do not use detergents, ammonia, oils, polishes, varnishes etc.

Cleaning with soap flakes:

- Use ½ deciliter of soap flakes for a liter of hot water. Whip the soap flakes into the water.
- When the water reaches room temperature, apply the foam all over the upholstery with a soft cloth. Only use the foam, not the water, and avoid soaking the leather.
- When the leather is dry, polish it with a soft, dry cotton cloth.

Composite mesh

Vacuum clean with low suction to preserve colour and appearance

Avoid exposing the mesh to direct sunlight, extreme heat or sharp objects

Avoid pulling or cutting loose threads. Push them back into the fabric with a blunt object

Use lukewarm water on a terry towel, add a mild, neutral cleaning agent, to remove stains

Test on a less visible spot before applying a cleaning agent

Use only small quantities of cleaning agent at a time and dry up with absorbent paper

Avoid rubbing the fabric or the stain

Avoid using air fresheners, this can cause a chemical reaction on the fabric

WARRANTY

Vipp offers warranty on your product according to national laws and regulations. The warranty does not cover defects or damage caused directly or indirectly by misuse or poor maintenance, violence or manipulation.

The warranty presupposes rightful use as described in Vipp's care instructions, which can be found in this folder or under the specifications of each product at vipp.com. In case of a defective product, please contact your place of purchase.

MAINTENANCE GUIDE

The chair may need to be re-tightened for stability after some use. There are eight screws holding the frame together, use a hex key to tighten these. If you experience any problems, please do not hesitate to contact our Customer Service at info@vipp.com.

IMPORTANT

The chair is well-suited for all kinds of applications in private homes, office buildings, showrooms, public halls, function rooms, cafés, restaurants, canteens and bars.

The chair is tested and approved according to:

EN 1022:2005 & EN 16139:2013 L1
