

Magic Desk

Design André Schelbach

Yomei's MAGIC DESK is an innovative interpretation of the classic bureau. In its closed state, this magical desk resembles a refined and elegant sideboard. Featuring precision-finished stainless steel hinges, the top of the desk can be folded out to extend the writing area from 43 to 61,5 cm (height 73 cm) and reveal the sophisticated interior of the MAGIC DESK: two leather drawers, three electrical sockets and a cable trough for organizing this home office with a twist. The cables run invisibly within the high quality, polished stainless steel frame. The MAGIC DESK concept recently received the red dot design award for its finely crafted functionality and sophisticated design quality.
